OpenDataology General Meeting

谭靖雯

2023.10.11

Motivation

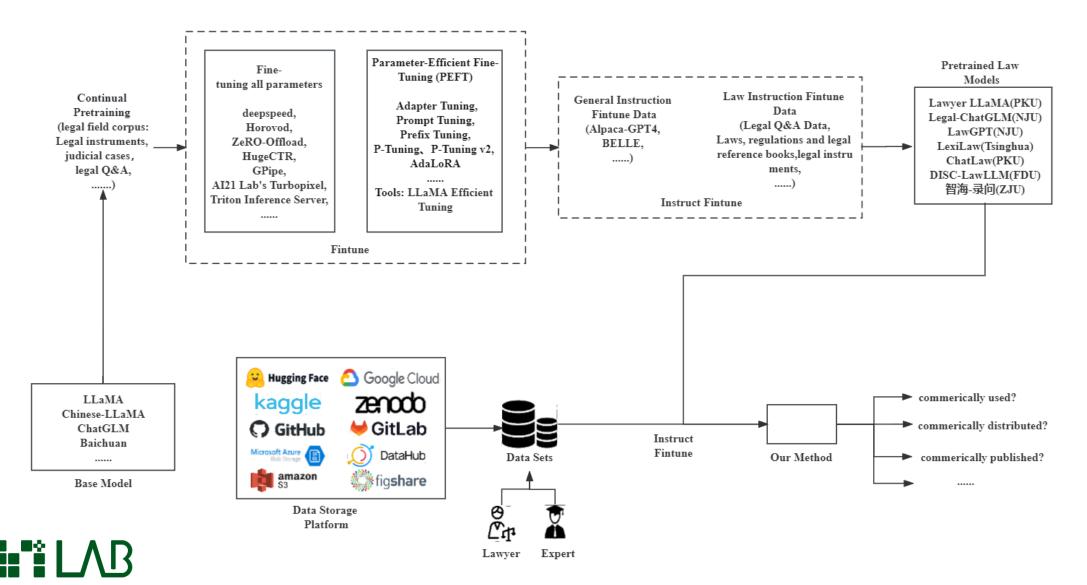

- We can know the specific requirments for using the data set based on the data license. However, whether the use of data set is legal and compliant needs to be reviewd by professional lawyers. <u>It costed time and resourse</u>.
- With the emergence of LLMs, continual pretraining, finetune and instruct finetune in a specific domain make LLMs own better performance. <u>It give us technical</u> <u>support.</u>
- We have made a lot of early preparations, including collecting the actual dataset license information, cleaning it, asking lawyers for advice and precaustions, so we have accumulated a wealth of License data. We have a solid foundation.

Framework

Demo

- Pretrained Law Model-LawGPT
- **■** Finished Function– commercially used

It can be commercially used.

Output
可以商用。

根据提供的信息,Netflix没有明确禁止商业使用数据集,也没有明确规定商业使用数据集需要获得额外的许可。因此,可以认为商业使用数据集是允许的,但需要遵守Netflix提供的一些条件,包括不能声称数据集来自Netflix,必须确认在出版物中引用数据集,并向Netflix发送出版物的副本。
需要注意的是,商业使用数据集可能需要获得Netflix的额外许可,具体取决于商业用途的性质和规模。如果您计划使用数据集进行商业用途,建议与Netflix联系以获取更详细的信息。</s>
